The International Conference on IT Applications and Management (ITAM) is an international forum which is designed to facilitate the exchange of ideas, knowledge and advances in research and for discussion of the state-of-the-art application and management of information technologies. Submissions of high-quality papers are invited for peer review.

The main theme of the 30th ITAM conference (ITAM-30) is “**Entrepreneurship and Spirituality in the Age of Digital Innovation.**” This theme covers the importance of entrepreneurial mind, humanity and spiritual lifestyle in the age of technology abundance, where digital technology and infrastructure is available and ubiquitous. Digital transformation is expected to transform our social and economic life. Changes in the way we live and work are expected to lead us to a whole new world. An affiliated symposium on “**The Future of Asia**” deals with international collaboration issues in education, management and culture. Affiliated events to ITAM-30 will include visits to spiritual places such as the sacred birthplace of Buddha in Lumbini and to the unique Asian safari in Nepal.
